

██████████ NOFORN

PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	0201	SESSION NUMBER:	01
DATE OF SESSION:	16 MAR 90	DATE OF REPORT:	16 MAR 90
START:	1000	END:	1025
METHODOLOGY:	CRV	VIEWER IDENTIFIER:	052

1. (S/NF/SK) MISSION: To describe the waterfall at encrypted coordinates 37 45' 27"N/119 35' 44"W.

2. (S/NF/SK) VIEWER TASKING: Utilizing encrypted coordinates 37 45' 27"N/119 35' 44"W describe the target.

3. (S/NF/SK) COMMENTS: No inclemencies noted. A summary of information is attached to this report. *X*

4. (S/NF/SK) EVALUATION: *3*

*No summary is attached -  
a note will suffice.*

MONITOR: 025

## Yosemite

WHEELED TO FROTH  
in a wild leap,  
Yosemite Fall plummets  
with such force that the  
ground trembles at its  
base. Upper Fall, Middle  
Cascades, and Lower Fall  
form one of a combined  
series of falls, which, when  
the falling water is  
available, spans nearly  
the fall's fall. Yosemite  
Valley with its thunder-  
ous roar in early summer  
the wailing waters whip  
in the wind like a moss-  
over veil. By mid-August  
only a few trickles down  
the canyon face.

Pressed between sheer  
rock walls half a mile  
high, Yosemite Valley fol-  
lows a seven-mile gorge  
carved by glaciers and  
the Merced River. From  
hanging valleys high  
above the river spill many  
other spectacular falls,  
including Bridalveil, Ver-  
nal, Illilouette, Nevada,  
and Ribbon, which drops  
1,612 feet, longest single  
fall on the continent.

Yosemite became a na-  
tional park in 1890, a few  
days after nearby Sequoia  
attained park status.

UPPER 37° 45' 27" N  
FALLS 119° 35' 44" W

Yosemite firefall rains a  
river of embers down the  
face of Glacier Point.  
Each summer evening  
a bonfire of bark from  
fallen trees blazes atop  
the cliff. During its last

CPYRGHT

embers. As twilight deepens into night, an expectant hush envelops campers in the valley more than half a mile below. Suddenly the city sounds in the darkness, "Let the fire fall!" and men with long-handled rakes push the coals over the brink. As if in slow motion, the fiery torrent drifts toward the canyon floor, consuming itself as it falls.
